

MANAGEMENT'S DISCUSSION AND ANALYSIS QUARTERLY HIGHLIGHTS

For the six months ended March 31, 2025

(Expressed in Canadian dollars)

AZARGA METALS CORP.
For the six months ended March 31, 2025
MANAGEMENT'S DISCUSSION AND ANALYSIS

The following is management's discussion and analysis – quarterly highlights ("MD&A") of the results of operations and financial condition of Azarga Metals Corp. (the "Company" or "Azarga") for the six months ended March 31, 2025 and up to the date of this MD&A, and has been prepared to provide material updates to the business operations, financial condition, liquidity and capital resources of the Company since its last management's discussion and analysis for the fiscal year ended September 30, 2024 (the "Annual MD&A").

This MD&A should be read in conjunction with the Annual MD&A and the audited financial statements for the year ended September 30, 2024, together with the notes thereto, and the accompanying unaudited condensed interim financial statements and related notes thereto for the six months ended March 31, 2025 (the "Financial Report").

All financial information in this MD&A is derived from the Company's financial statements prepared in accordance with IFRS Accounting Standards and all dollar amounts are expressed in Canadian dollars unless otherwise indicated.

The effective date of this MD&A is May 30, 2025.

Description of the Business

Azarga is a publicly traded company incorporated under the laws of the Province of British Columbia. The Company's shares are listed on the TSX Venture Exchange and trade under the symbol AZR.

The Company is engaged in the exploration and, if warranted, development of mineral resource projects in Canada. The Company is considered to be in the exploration stage as it has not placed any of its exploration and evaluation assets into production nor has it generated any revenues from operations.

Marg Copper Project, Yukon, Canada

The Marg Project is an undeveloped high-grade copper-rich volcanogenic massive sulphide ("VMS") deposit located in the Keno Hill Silver District, Yukon Territory, approximately 40 kilometres east of Keno City and 465 kilometres by road north of Whitehorse. The Marg Project claims are located within the First Nation of the Nacho Nyak Dun traditional territory.

Exploration

In late 2022, the Company completed an induced polarization ("IP") survey at the Marg Project which covered a significant portion of the known Marg VMS horizon, as well as an area immediately north of strong multi-element soil geochemical anomalies lying along an interpreted fold repetition of the Marg VMS horizon.

In May 2023, the Company received the final report on the IP survey at its Marg Project. The IP survey was undertaken by Abitibi Geophysics Inc. ("Abitibi"), over, across, and along strike from the Marg deposit, with the goal of assisting to identify drill targets which could extend the known Marg mineralization or discover new zones of interest with similar signatures. The highest priority areas were covered by the IP survey; however, due to winter weather conditions, a minor number of peripheral lines had to be deferred until a later date. The IP survey data was acquired using a "sounding-style" Wenner array to identify resistive and chargeable features. Where chargeable zones with high resistivity coincide, the "Gold Index parameter" amplifies the response (Figure 2). In the IP survey, two such zones, both relatively continuous along strike, were identified, with Zone A lying to the north of Zone B (Figure 1 & 2). Zone A is interpreted as the probable "up-dip", near surface mineralized Marg horizon, and Zone B, an apparently sub-parallel horizon, is interpreted as a possible fold repeat of Zone A (and hence of the known Marg horizon), across a tight overturned fold, with both limbs dipping to the south and extending beyond the depth of investigation of the IP survey.

AZARGA METALS CORP.
For the six months ended March 31, 2025
MANAGEMENT'S DISCUSSION AND ANALYSIS

The Company is currently assessing next steps for the Marg Project.

Mineral Resource Estimate

The most recent NI 43-101 Mineral Resource estimate for the Marg Project (see Table 1 below) was completed by Mining Plus Canada Consulting Ltd. in 2016 and incorporated into a preliminary economic assessment ("PEA") for the project titled "Revere Development Corp, Marg Project Preliminary Economic Assessment, Technical Report, Yukon Canada" and dated August 31, 2016.

The mineral resource estimate in the 2016 PEA was prepared in accordance with NI 43-101 standards and is considered by Azarga management to have a high degree of reliability, however, the resource has not been verified by Azarga and is considered historical in nature. A qualified person representing Azarga has not done sufficient work to classify the historical estimate as a current mineral resource and Azarga is not treating it as a current mineral resource.

Table 1 – August 31, 2016 Historical Resource estimate for Marg Project at a 0.5% copper equivalent cut-off (combining high-grade and low-grade zones)¹

Category	Tonnage (mt)	Cu%	Pb%	Zn%	Ag g/t	Au g/t
Indicated	3.7	1.5	2.0	3.8	48	0.76
Inferred	6.1	1.2	1.7	3.4	44	0.74

Note: 1. Where CuEq% was calculated = Cu% + 0.28 Pb% + 0.32 Zn% + 0.39 Au g/t + 0.0055 Ag g/t, which was assessed based on the following metal price and recovery assumptions: Cu price of 2.5 US\$/lb and recovery of 80% (96.5% payable); Pb price of 0.8 US\$/lb and recovery of 70% (95% payable); Zn price of 0.8 US\$/lb and recovery of 90% (85% payable); Au price of 1100 US\$/oz and recovery of 50% (90% payable); and Ag price of 16 US\$/oz and recovery of 50% (90% payable).

Qualified Person

Charles J. Greig, P.Geo., a consultant to Azarga and a Qualified Person as defined by NI 43-101, is relying on the IP survey, CTS Wenner Configuration, logistics and interpretation report prepared for Azarga by Abitibi Geophysics Inc. dated February 2023 for certain disclosure regarding the geophysical interpretation and conclusions contained in this MD&A.

Trends

The Company is an exploration company. At this time, issues of seasonality or market fluctuations have had a minor impact on the expenditure patterns. The Company expenses its exploration, project investigation and general and administration costs, and these amounts are included in the net income (loss) for each period. The Company's treasury, in part, determines the levels of exploration.

The level of the Company's exploration and evaluation expenditures is largely determined by the strength of resource capital and commodity markets and its ability to obtain investor support for its projects.

AZARGA METALS CORP.
For the six months ended March 31, 2025
MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Condition and Results of Operations – six months ended March 31, 2025

Income for the six months ended March 31, 2025 was \$305,639 compared to a loss of \$141,087 for the six months ended March 31, 2024.

Consulting fees for the six months ended March 31, 2025 were \$137,000 (2024 - \$137,000) and relate to the Company's management team.

Director fees for the six months ended March 31, 2025 were \$18,000 (2024 - \$Nil). The Company commenced paying the independent directors on January 1, 2025.

Share-based compensation expense for the six months ended March 31, 2025 was \$12,722 (2024 - \$33,947) and relates to restricted share units that vested during the period.

In January 2024, the Company entered into a side letter agreement to restructure the terms of the Marg project acquisition. Accordingly, the Company reversed the exploration and evaluation assets of \$479,018, included as original consideration, and the property payments obligations of \$550,000 and recorded a gain on reversal of property payment obligations of \$70,982 to the statement of comprehensive loss for the six months ended March 31, 2024.

During the six months ended March 31, 2025, the Company recorded a gain on settlement of trade and other payables of \$515,070 as follows:

- In January 2025, the Company entered into debt settlement agreements with each of the Chief Executive Officer ("CEO") and Golden Oak Corporate Services Ltd. ("Golden Oak") whereby the CEO and Golden Oak agreed to forgive 80% of their unpaid fees totalling \$503,600 accrued up to and including December 31, 2024, leaving a balance owing to the CEO of \$87,900 and to Golden Oak of \$38,000 (the "RP Debt"). The RP Debt is payable 50% on closing of a private placement and 50% over the six-month period thereafter. In February 2025, the Company paid 50% of the RP Debt on closing of its private placement. On completion of the debt settlement agreements, the Company recorded a gain on settlement of trade and other payables of \$503,600 for the three and six months ended March 31, 2025.
- In February 2025, the Company and a third-party vendor agreed to settle trade payables of \$57,351 through the payment of \$45,881. Accordingly, the Company recorded a gain on settlement of trade and other payables of \$11,470 for the three and six months ended March 31, 2025.

Liquidity and Capital Resources

The Company began the current fiscal period with cash of \$15,212. During the six months ended March 31, 2025, the Company spent \$355,055 on operating activities, net of working capital changes, and received \$1,100,000 from a private placement, to end at March 31, 2025 with cash of \$760,157.

As at March 31, 2025, the Company had working capital of \$721,640. Management estimates that its working capital may not provide the Company with sufficient financial resources to carry out currently planned operations and exploration through the next twelve months. Additional financing may be required by the Company to complete its strategic objectives and continue as a going concern. While the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These material uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Related Party Transactions

The Company had no other related party transactions other than those incurred in the normal course of business as disclosed in the Financial Report.

Additional Disclosure for Venture Issuers without Significant Revenue

The components of exploration and evaluation assets are described in Note 4 to the Financial Report.

Outstanding Share Data as at the date of this MD&A

The Company has an unlimited number of common shares without par value authorized for issuance.

	Common Shares Issued and Outstanding	Share Purchase Warrants	Stock Options
Balance as at March 31, 2025	74,908,605	2,700,000	800,000
Balance as at the date of this MD&A	74,908,605	2,700,000	800,000

Cautionary Note Regarding Forward-looking Statements

This MD&A may include or incorporate by reference certain statements or disclosures that constitute "forward-looking information" under applicable securities laws. All information, other than statements of historical fact, included or incorporated by reference in this MD&A that address activities, events or developments that Azarga or its management expects or anticipates will or may occur in the future constitute forward-looking information. Forward-looking information is provided through statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur or continue. These forward-looking statements are based on certain assumptions and analyses made by Azarga and its management in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors it believes are appropriate in the circumstances.

Although Azarga believes such forward-looking information and the expectations expressed in them are based on reasonable assumptions, investors are cautioned that any such information and statements are not guarantees of future realities and actual realities or developments may differ materially from those projected in forward-looking information and statements. Whether actual results will conform to the expectations of Azarga is subject to a number of risks and uncertainties, including those risk factors discussed under "Risk Management" in the above documents incorporated herein by reference. In particular, if any of the risk factors materialize, the expectations, and the predictions based on them, of Azarga may need to be re-evaluated. Consequently, all of the forward-looking information in this MD&A and the documents incorporated herein by reference is expressly qualified by these cautionary statements and other cautionary statements or factors contained herein or in documents incorporated by reference herein, and there can be no assurance that the actual results or developments anticipated by Azarga will be realized or, even if substantially realized, that they will have the expected consequences for Azarga.
