AZARGA METALS CORP.
NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

For the six months ended March 31, 2026
(Unaudited – Expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Azarga Metals Corp. (the “Company”) is a publicly traded company incorporated under the laws of the Province of British Columbia. The Company’s shares are listed on the TSX Venture Exchange and trade under the symbol AZR. The corporate office of the Company is located at Unit 1 - 15782 Marine Drive, White Rock, B.C., V4B 1E6.

The Company is engaged in the exploration and, if warranted, development of mineral resource projects in Canada. The Company is considered to be in the exploration stage as it has not placed any of its exploration and evaluation assets into production nor has it generated any revenues from operations.

These condensed interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. As at March 31, 2026, the Company had working capital of \$1,295,724. Management estimates that its working capital may not provide the Company with sufficient financial resources to carry out currently planned operations and exploration through the next twelve months. Additional financing may be required by the Company to complete its strategic objectives and continue as a going concern. While the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These material uncertainties cast significant doubt upon the Company’s ability to continue as a going concern.

These condensed interim financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting using accounting policies consistent with IFRS Accounting Standards as issued by the International Accounting Standards Board (“IASB”).

These condensed interim financial statements do not include all of the disclosures required for annual financial statements, and therefore should be read in conjunction with the annual financial statements for the year ended September 30, 2025.

Basis of measurement

These condensed interim financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Functional and presentation currency

These condensed interim financial statements are presented in Canadian dollars, which is the Company’s functional currency.

2. BASIS OF PRESENTATION (continued)

Use of accounting estimates, judgments, and assumptions

Information about estimates and judgments used in applying accounting policies that have the most significant effect on the amounts recognized in these condensed interim financial statements are included in Note 2 to the Company's September 30, 2025 annual financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied by the Company in these condensed interim financial statements are the same as those applied by the Company as at and for the year ended September 30, 2025.

New standards, interpretations and amendments not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of March 31, 2026 and have not been applied in preparing these condensed interim financial statements.

On April 9, 2024, the IASB issued IFRS 18 "Presentation and Disclosure in the Financial Statements" ("IFRS 18") replacing IAS 1. IFRS 18 introduces categories and defined subtotals in the statement of profit or loss, disclosures on management-defined performance measures, and requirements to improve the aggregation and disaggregation of information in the financial statements. As a result of IFRS 18, amendments to IAS 7 were also issued to require that entities use the operating profit subtotal as the starting point for the indirect method of reporting cash flows from operating activities and also to remove presentation alternatives for interest and dividends paid and received. Similarly, amendments to IAS 33 "Earnings per Share" were issued to permit disclosure of additional earnings per share figures using any other component of the statement of profit or loss, provided the numerator is a total or subtotal defined under IFRS 18. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and is to be applied retrospectively, with early adoption permitted. The Company is currently assessing the impact of the standard on its financial statements.

March 31, 2026	\$	892,279

The Marg project is the Company's 100% owned undeveloped high-grade copper-rich volcanogenic massive sulphide deposit located in the Keno Hill Silver District, Yukon Territory of Canada.

The Marg project is subject to a 1% net smelter return royalty which the Company has the option to buy back for cash consideration of \$1,500,000. In addition, upon a final decision to mine by the Company, a payment of \$300,000 is due in cash or shares, at the vendor's discretion, to the vendor of the Marg project.

The Company recorded the following exploration and evaluation expenditures on its Marg project during the three and six months ended March 31, 2026 and 2025.

6. SHARE CAPITAL AND SHARE-BASED RESERVE

a) Authorized

The Company has an unlimited number of common shares without par value authorized for issuance.

b) Issued and outstanding

During the six months ended March 31, 2026, the Company completed the following:

- On February 10, 2026, the Company completed a private placement through the issuance of 10,000,000 units at a price of \$0.10 per unit for gross proceeds of \$1,000,000. Each unit consisted of one common share and one-half of one share purchase warrant with each whole warrant entitling the holder to purchase one common share at a price of \$0.20 until February 10, 2028. The share purchase warrants were valued at \$201,147 using the relative fair value approach.

The Company paid cash finders' fees of \$30,000, issued 300,000 common shares valued at \$30,000, and issued 600,000 finders' warrants valued at \$63,080 to certain arm's length finders. The finders' warrants are exercisable to acquire one common share at a price of \$0.10 until February 10, 2028. The Company also incurred other share issue costs of \$7,193.

The fair value of the share purchase warrants and the finders' warrants were determined using the Black-Scholes option pricing model with the following assumptions: a risk-free interest rate of 2.53%; an expected volatility of 105%; an expected life of 2 years; a forfeiture rate of zero; and an expected dividend of zero.

- On March 27, 2026, the Company completed a private placement through the issuance of 3,707,850 units at a price of \$0.135 per unit for gross proceeds of \$500,560. Each unit consisted of one common share and one-half of one share purchase warrant with each whole warrant entitling the holder to purchase one common share at a price of \$0.20 until March 27, 2028. The share purchase warrants were valued at \$106,574 using the relative fair value approach.

The Company paid cash finders' fees of \$7,862, issued 58,240 common shares valued at \$7,862, and issued 116,480 finders' warrants valued at \$10,871 to certain arm's length finders. The finder's warrants are exercisable to acquire one common share at a price of \$0.135 until March 27, 2028. The Company also incurred other share issue costs of \$4,068.

The fair value of the share purchase warrants and the finders' warrants were determined using the Black-Scholes option pricing model with the following assumptions: a risk-free interest rate of 3.18%; an expected volatility of 116%; an expected life of 2 years; a forfeiture rate of zero; and an expected dividend of zero.

As at March 31, 2026, all warrants outstanding were exercisable with a weighted average remaining contractual life of 1.90 years.

d) Share-based compensation

The Company has a 10% “rolling” stock option plan (the “Plan”) which governs the granting of stock options to directors, officers, employees and consultants of the Company for the purchase of up to 10% of the issued and outstanding common shares of the Company from time to time. The maximum term of stock options is ten years from the grant date. The exercise price and vesting terms are at the discretion of the directors.

In addition, the Company has an equity incentive plan (the “Equity Plan”) which governs the granting of any restricted share units, performance share units, or deferred share units granted under the Equity Plan, to directors, officers, employees and consultants of the Company. Under the Equity Plan, the Company has reserved for issuance up to 6,000,000 common shares.

Stock options

The continuity of stock options for the six months ended March 31, 2026 is as follows:

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial Instruments

Financial instruments are classified into one of the following categories: fair value through profit or loss; fair value through other comprehensive income; or at amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instruments	Category	March 31, 2026	September 30, 2025
Cash	Amortized cost	\$ 1,318,019	\$ 128,287
Receivables	Amortized cost	2,302	3,803
Trade and other payables	Amortized cost	25,754	41,140

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.
- Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The carrying values for cash, receivables, and trade and other payables approximate their fair value due to their short-term nature. These financial instruments are classified as financial assets and liabilities at amortized cost and are reported at amortized cost.

Risk Management
