MANAGEMENT’S DISCUSSION AND ANALYSIS

The following is management’s discussion and analysis – quarterly highlights (“MD&A”) of the results of operations and financial condition of Azarga Metals Corp. (the “Company” or “Azarga”) for the six months ended March 31, 2026 and up to the date of this MD&A, and has been prepared to provide material updates to the business operations, financial condition, liquidity and capital resources of the Company since its last management’s discussion and analysis for the fiscal year ended September 30, 2025 (the “Annual MD&A”).

This MD&A should be read in conjunction with the Annual MD&A and the audited financial statements for the year ended September 30, 2025, together with the notes thereto, and the accompanying unaudited condensed interim financial statements and related notes thereto for the six months ended March 31, 2026 (the “Financial Report”).

All financial information in this MD&A is derived from the Company’s financial statements prepared in accordance with IFRS Accounting Standards and all dollar amounts are expressed in Canadian dollars, unless otherwise indicated.

The effective date of this MD&A is May 26, 2026.

Description of the Business

Azarga is a publicly traded company incorporated under the laws of the Province of British Columbia. The Company’s shares are listed on the TSX Venture Exchange (“TSX-V”) and trade under the symbol AZR.

The Company is engaged in the exploration and, if warranted, development of mineral resource projects in Canada. The Company is considered to be in the exploration stage as it has not placed any of its exploration and evaluation assets into production nor has it generated any revenues from operations.

Marg Copper Project, Yukon, Canada

The Marg Project is the Company’s 100% owned undeveloped high-grade copper-rich volcanogenic massive sulphide (“VMS”) deposit located in the Keno Hill Silver District, Yukon Territory, approximately 40 kilometres east of Keno City and 465 kilometres by road north of Whitehorse. The Marg Project claims are located within the First Nation of the Nacho Nyak Dun traditional territory.

On September 23, 2025, the Company filed a National Instrument 43-101 - Standard of Disclosures for Mineral Projects (“NI 43-101”) independent technical report for the Marg Project titled “NI 43-101 Technical Report for the Marg Property, Yukon Territory” (the “Marg Report”) dated August 29, 2025, with an effective date of August 29, 2025. The Marg Report was prepared by independent consultants at IMC Mining Pty Ltd. and TruePoint Exploration.

The Mineral Resource estimate at a 0.5% copper equivalent (“CuEq”) cut-off is:

Category	Tonnage Mt	Cu %	Pb %	Zn %	Ag g/t	Au g/t	CuEq1 %
Indicated	4.3	1.3	1.7	3.2	42	0.66	2.9
Inferred	10.0	1.0	1.3	2.6	33	0.54	2.3

CuEq is calculated as: $CuEq\% = Cu\% + 0.1 \cdot Pb\% + 0.25 \cdot Zn\% + 0.62 \cdot Au (g/t) + 0.007 \cdot Ag (g/t)$

Metal price and recovery assumptions:

- Copper: US\$9,100/t; 80% recovery, 96.5% payable
- Lead: US\$1,900/t; 50% recovery, 75% payable
- Zinc: US\$2,600/t; 80% recovery, 85% payable
- Gold: US\$3,000/oz; 50% recovery, 90% payable

AZARGA METALS CORP.
For the six months ended March 31, 2026
MANAGEMENT'S DISCUSSION AND ANALYSIS

- Silver: US\$32/oz; 50% recovery, 90% payable

The 2025 Mineral Resource estimate builds upon the historic mineral resource model, extending the interpreted mineralized domain extent using a 0.5% CuEq cut-off grade and simplifying the structural model by removing the previous use of dual cut-offs.

Metallurgical testwork suggests that the deposit is amenable to differential flotation, producing copper, lead, and zinc concentrates, with gold and silver reporting to the sulphide concentrates.

There is significant potential to expand the scale of the Marg deposit as the project remains largely undrilled. The Marg deposit remains open to the east, west and down dip, indicating significant potential to expand the Mineral Resource. In addition, geophysical surveys, surface mapping and additional surface mineralization occurrences at the Jane zone indicate considerable prospectivity for additional VMS mineralization outside of the Marg deposit but within the Marg Project.

The Company is currently preparing an exploration program for the Marg Project for the summer of 2026.

Qualified Person

The technical content of this MD&A has been reviewed and approved by Charles J. Greig, P.Geo., a consultant to Azarga and a Qualified Person as defined by National Instrument 43-101 – Standards of Disclosure for Mineral Projects.

Trends

The Company is an exploration company. Issues of seasonality and market fluctuations have an impact on the expenditure patterns. The Company expenses its exploration, project investigation and general and administration costs, and these amounts are included in the net income (loss) for each period. The Company's treasury, in part, also determines the levels of exploration.

The level of the Company's exploration and evaluation expenditures is largely determined by the strength of resource capital and commodity markets and its ability to obtain investor support for its projects.

Financial Condition and Results of Operations – six months ended March 31, 2026

Loss and comprehensive loss for the six months ended March 31, 2026 was \$396,417 compared to income of \$305,639 for the six months ended March 31, 2025.

Consulting fees for the six months ended March 31, 2026 were \$141,667 (2025 - \$137,000) and relate to the Company's management team. Consulting fees to the management team were increased effective March 1, 2026.

Director fees for the six months ended March 31, 2026 were \$63,750 (2025 - \$18,000). The Company increased independent directors effective January 1, 2026.

Marketing and promotion expenses for the six months ended March 31, 2026 were \$32,686 (2025 - \$Nil) and primarily relate to market making services effective May 1, 2025, as announced by the Company on April 30, 2025.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Share-based compensation expense for the six months ended March 31, 2026 was \$139,196 (2025 - \$12,722) and relates to stock options, restricted share units and deferred share units granted and vested during the period.

During the six months ended March 31, 2025, the Company recorded a gain on settlement of trade and other payables of \$515,070 as follows:

- In January 2025, the Company entered into debt settlement agreements with each of the Chief Executive Officer ("CEO") and Golden Oak Corporate Services Ltd. ("Golden Oak") whereby the CEO and Golden Oak agreed to forgive 80% of their unpaid fees totalling \$503,600 accrued up to and including December 31, 2024. Accordingly, the Company recorded a gain on settlement of trade and other payables of \$503,600 for the three and six months ended March 31, 2025.
- In February 2025, the Company and a third-party vendor agreed to settle trade payables of \$57,351 through the payment of \$45,881. Accordingly, the Company recorded a gain on settlement of trade and other payables of \$11,470 for the three and six months ended March 31, 2025.

Liquidity and Capital Resources

The Company began the current fiscal period with cash of \$128,287. During the six months ended March 31, 2026, the Company spent \$261,705 on operating activities, net of working capital changes, and received \$1,451,437 from financing activities, to end at March 31, 2026 with cash of \$1,318,019.

On February 10, 2026, the Company completed a private placement through the issuance of 10,000,000 units at a price of \$0.10 per unit for gross proceeds of \$1,000,000. The Company paid cash finders' fees of \$30,000, issued 300,000 common shares valued at \$30,000, and issued 600,000 finders' warrants valued at \$63,080 to certain arm's length finders. The Company also incurred other share issue costs of \$7,193.

On March 27, 2026, the Company completed a private placement through the issuance of 3,707,850 units at a price of \$0.135 per unit for gross proceeds of \$500,560. The Company paid cash finders' fees of \$7,862, issued 58,240 common shares valued at \$7,862, and issued 116,480 finders' warrants valued at \$10,871 to certain arm's length finders. The Company also incurred other share issue costs of \$4,068.

As at March 31, 2026, the Company had working capital of \$1,295,724. Management estimates that its working capital may not provide the Company with sufficient financial resources to carry out currently planned operations and exploration through the next twelve months. Additional financing may be required by the Company to complete its strategic objectives and continue as a going concern. While the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These material uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

Related Party Transactions

The Company had no other related party transactions other than those incurred in the normal course of business as disclosed in the Financial Report.

Additional Disclosure for Venture Issuers without Significant Revenue

The components of exploration and evaluation assets are described in Note 4 to the Financial Report.
