1. NATURE OF OPERATIONS AND GOING CONCERN

Azarga Metals Corp. (the "Company") is a publicly traded company incorporated under the laws of the Province of British Columbia. The Company's shares are listed on the TSX Venture Exchange and trade under the symbol AZR. The corporate office of the Company is located at Unit 1 - 15782 Marine Drive, White Rock, B.C., V4B 1E6.

The Company is engaged in the exploration and, if warranted, development of mineral resource projects in Canada. The Company is considered to be in the exploration stage as it has not placed any of its exploration and evaluation assets into production nor has it generated any revenues from operations.

These condensed interim financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business in the foreseeable future. As at June 30, 2025, the Company had working capital of \$553,978. Management estimates that its working capital may not provide the Company with sufficient financial resources to carry out currently planned operations and exploration through the next twelve months. Additional financing may be required by the Company to complete its strategic objectives and continue as a going concern. While the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company. These material uncertainties cast significant doubt upon the Company's ability to continue as a going concern.

These condensed interim financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate.

2. BASIS OF PRESENTATION

Statement of compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 Interim Financial Reporting using accounting policies consistent with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").

These condensed interim financial statements do not include all of the disclosures required for annual financial statements, and therefore should be read in conjunction with the annual financial statements for the year ended September 30, 2024.

Basis of measurement

These condensed interim financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Functional and presentation currency

These condensed interim financial statements are presented in Canadian dollars, which is the Company's functional currency.

For the nine months ended June 30, 2025 (Unaudited – Expressed in Canadian dollars)

2. BASIS OF PRESENTATION (continued)

Use of accounting estimates, judgments, and assumptions

Information about estimates and judgments used in applying accounting policies that have the most significant effect on the amounts recognized in these condensed interim financial statements are included in Note 2 to the Company's September 30, 2024 annual financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies applied by the Company in these condensed interim financial statements are the same as those applied by the Company as at and for the year ended September 30, 2024.

New accounting policy

The following amendments to existing standards have been adopted by the Company commencing October 1, 2024:

Amendments to IAS 1, Presentation of Financial Statements

These amendments clarify how to classify debt and other liabilities as current or non-current. The amendments help to determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments also include clarifying the classification requirements for debt an entity might settle by converting it into equity. The adoption of this revised standard did not impact these condensed interim financial statements.

New standards, interpretations and amendments not yet effective

A number of new standards, amendments to standards and interpretations are not yet effective as of June 30, 2025 and have not been applied in preparing these condensed interim financial statements.

On April 9, 2024, the IASB issued IFRS 18 "Presentation and Disclosure in the Financial Statements" ("IFRS 18") replacing IAS 1. IFRS 18 introduces categories and defined subtotals in the statement of profit or loss, disclosures on management-defined performance measures, and requirements to improve the aggregation and disaggregation of information in the financial statements. As a result of IFRS 18, amendments to IAS 7 were also issued to require that entities use the operating profit subtotal as the starting point for the indirect method of reporting cash flows from operating activities and also to remove presentation alternatives for interest and dividends paid and received. Similarly, amendments to IAS 33 "Earnings per Share" were issued to permit disclosure of additional earnings per share figures using any other component of the statement of profit or loss, provided the numerator is a total or subtotal defined under IFRS 18. IFRS 18 is effective for annual reporting periods beginning on or after January 1, 2027, and is to be applied retrospectively, with early adoption permitted. The Company is currently assessing the impact of the standard on its financial statements.

Marg Copper Project, Yukon, Canada

In December 2021, the Company completed the acquisition of the Marg project, located in the Yukon Territory of Canada.

As consideration, the Company paid a non-refundable deposit of \$50,000 and issued 521,999 common shares valued at \$313,199. The Company also paid a finder's fee to a third-party through the issuance of 44,776 common shares valued at \$26,866. In addition, the Company was also obligated to pay \$200,000 on the first anniversary of closing and \$350,000 on the second anniversary of closing. The second anniversary payment of \$350,000 was discounted at a rate of 12% over a period of two years for an initial present value of \$279,018. These amounts were accrued as part of the consideration payable for the Marg project.

Cash	\$ 50,000
Shares issued	313,199
Shares issued for finder's fee	26,866
Property payment obligation - first anniversary	200,000
Property payment obligation - second anniversary	279,018
Total	\$ 869,083

Upon a final decision to mine (the "Milestone") by the Company, an additional payment of \$300,000 is due in cash or shares at the vendor's discretion. Finder's fees are payable on this payment.

The Marg project was subject to a 1% net smelter return ("NSR") royalty which the Company had the option to buy back for cash consideration of \$1,500,000 (subsequently amended – see below).

In January 2024, the Company entered into a side letter agreement to restructure the terms of the Marg project acquisition so that the property payment obligations were cancelled and replaced with option maintenance payments. The parties amended the Marg project acquisition agreement to an option to purchase agreement whereby if the Company does not complete the option maintenance payments and exercise the option to purchase the Marg project on or before December 1, 2025, the option to purchase the Marg project will expire and title to the project will revert back to the vendor.

Accordingly, the Company reversed the exploration and evaluation assets of \$479,018, included as original consideration, and the property payments obligations of \$550,000 and recorded a gain on reversal of property payment obligations of \$70,982 to the statement of comprehensive loss for the nine months ended June 30, 2024.

For the nine months ended June 30, 2025 (Unaudited – Expressed in Canadian dollars)

4. EXPLORATION AND EVALUATION ASSETS (continued)

Pursuant to the terms of the side letter agreement, the Company agreed to make the following option payments:

- issue 2,866,666 common shares (issued in January 2024 at a value of \$143,333).
- pay \$33,500 in cash or shares at the option of the Company on or before December 1, 2024 (issued 670,000 common shares in November 2024 at a value of \$20,100 (Note 6)).
- pay \$33,500 in cash or shares at the option of the Company on or before December 1, 2025, if the Company has not exercised the option before December 2, 2024 (this is no longer payable subsequent to June 30, 2025 see below).
- pay \$335,000 in cash on or before December 1, 2025 to exercise the option (this is no longer payable subsequent to June 30, 2025 see below).

In consideration for the vendor agreeing to enter into the side letter agreement, the Company increased the NSR royalty on the Marg project from 1% to 2%, with 1% subject to a buy back option for cash consideration of \$1,500,000 (further amended subsequent to June 30, 2025 – see below). The Milestone payment remained unchanged.

On July 30, 2025, the Company further agreed that in full and final settlement of the purchase price owing on the Marg project it would make the following payments:

- pay \$210,000 cash (paid in August 2025);
- issue 1,981,250 common shares (issued in August 2025);
- execute an amended NSR royalty agreement on the Marg project so that the NSR royalty is reduced from 2% to 1% which the Company has the option to buy back for cash consideration of \$1,500,000; and
- the Milestone payment remains unchanged.

The Company now holds 100% of the Marg project.

The Company recorded the following exploration and evaluation expenditures on its Marg project during the three and nine months ended June 30, 2025 and 2024.

In January 2025, the Company entered into debt settlement agreements with each of the Chief Executive Officer ("CEO") and Golden Oak Corporate Services Ltd. ("Golden Oak") whereby the CEO and Golden Oak agreed to forgive 80% of their unpaid fees totalling \$503,600 accrued up to and including December 31, 2024, leaving a balance owing to the CEO of \$87,900 and to Golden Oak of \$38,000 (the "RP Debt"). The RP Debt was payable 50% on closing of a private placement and 50% over the six-month period thereafter. Accordingly, the Company recorded a gain on settlement of trade and other payables of \$503,600 for the nine months ended June 30, 2025. In February 2025, the Company paid 50% of the RP Debt on closing of its January 2025 private placement (Note 6) and in July 2025, the Company made the final payment remaining on the RP Debt.

In February 2025, the Company and a third-party vendor agreed to settle trade payables of \$57,351 through the payment of \$45,881. Accordingly, the Company recorded a gain on settlement of trade and other payables of \$11,470 for the nine months ended June 30, 2025.

6. SHARE CAPITAL AND SHARE-BASED RESERVE

a) Authorized

The Company has an unlimited number of common shares without par value authorized for issuance.

b) Issued and outstanding

During the nine months ended June 30, 2025, the Company completed the following:

- On November 25, 2024, the Company issued 670,000 common shares valued at \$20,100 for exploration and evaluation assets to fully settle an option payment on the Marg project (Note 4).
- On January 20, 2025, the Company closed a private placement through the issuance of 36,666,666 common shares at a price of \$0.03 for gross proceeds of \$1,100,000. The Company incurred share issue costs of \$6,500.
- On March 5, 2025, the Company issued 1,200,000 common shares to three directors of the Company on the settlement of 1,200,000 restricted share units ("RSUs") (Note 6d) and reallocated \$48,000 from share-based reserve to share capital.

For the nine months ended June 30, 2025 (Unaudited – Expressed in Canadian dollars)

6. SHARE CAPITAL AND SHARE-BASED RESERVE (continued)

c) Share purchase warrants

The continuity of share purchase warrants for the nine months ended June 30, 2025 is as follows:

Expiry date		ercise orice	Balance, ptember 30, 2024	Granted	E	Exercised	Expired	Balance, June 30, 2025

As at June 30, 2025, the weighted average remaining contractual life of the share purchase warrants outstanding was 0.25 years.

d) Share-based compensation

The Company has a 10% "rolling" stock option plan (the "Plan") which governs the granting of stock options to directors, officers, employees and consultants of the Company for the purchase of up to 10% of the issued and outstanding common shares of the Company from time to time. The maximum term of stock options is ten years from the grant date. The exercise price and vesting terms are at the discretion of the directors.

In addition, the Company has an equity incentive plan (the "Equity Plan") which governs the granting of any restricted share units, performance share units, or deferred share units granted under the Equity Plan, to directors, officers, employees and consultants of the Company. Under the Equity Plan, the Company has reserved for issuance up to 6,000,000 common shares, of which 1,200,000 have been utilized, leaving a balance of 4,800,000 available for issuance.

8. SEGMENTED INFORMATION

Operating segments are identified on the basis of internal reports that are regularly reviewed by the chief operating decision-maker to allocate resources to the segments and to assess their performance.

The chief operating decision-maker who is responsible for allocating resources and assessing performance of the operating segments has been defined as the Chief Executive Officer.

The Company operates in a single segment, being mineral exploration and evaluation in Canada.

All of the Company's assets are located in Canada.

For the nine months ended June 30, 2025 (Unaudited – Expressed in Canadian dollars)

9. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial Instruments

Financial instruments are classified into one of the following categories: fair value through profit or loss; fair value through other comprehensive income; or at amortized cost. The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instruments	Category	June 30, 2025		September 30, 2024	
Cash	Amortized cost	\$ 554,163	\$	15,212	
Receivables	Amortized cost	2,356		2,078	
Trade and other payables	Amortized cost	19,949		714,161	

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

- Level 1 Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.
- Level 2 Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace.
- Level 3 Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The carrying values for cash, receivables, and trade and other payables approximate their fair value due to their short-term nature. These financial instruments are classified as financial assets and liabilities at amortized cost and are reported at amortized cost.

Risk Management

The Company's risk management objectives and policies are consistent with those disclosed by the Company for the year ended September 30, 2024.

For the nine months ended June 30, 2025 (Unaudited – Expressed in Canadian dollars)
